The third Comenius visit was to Tsirguliina, Estonia. The title of our Comenius Project is “EEC. Exploring European Contrasts”. In Estonia, the new 4th ESO students elaborated on the work the last year’s students had done entitled, “What am I proud of, What am I ashamed of”.

This elaboration of this analytical work focused on what the students are proud of and what they are ashamed of, but on a broader scale: not only in Catalonia but in Spain. The five students presented a PowerPoint to all the students and teachers from the other four countries.
