The Voluntary Group ANTAR began because many of our adolescent students wanted to help others and be given the opportunity to actively contribute in helping those people in society less fortunate than themselves. The group is made up of ESO and Baccalaureate students and teachers from School and grows in number each year.

Year after year our students involve themselves more and more, embarking on local and international projects.

Here is a summary of the activities that have been done so far:

- **Educational Talks:** The most veteran students of ANTAR give information and invite other students to join in, plan activities and reflect on their experiences.

- **Solidarity Campaigns:**
  - **Christmas Campaign:** We organise a food, clothes, toys and games collection which are then personally taken to the Sant Pau and Sant Pere parishes of the Rocabruna area in Mataró to be able to bring a little bit of illusion for those most in need at Christmas time.

  - **Honduras Grants Campaign:** For 12 years we have been economically helping a group of 20 boys and girls in Honduras who have very poor economic resources so that they can continue studying and finish their primary education.
    Some of the activities related to this Campaign are:
    - Designing and selling objects.
    - Making and selling cakes.
    - Organising the Charity Tombola.
    - Organising the Solidarity Festival: To close the **Honduras Grants** Campaign the Ògora Talent Show is organised with ESO and Baccalaureate students showing off their artistic abilities with dances, singing, martial arts or drama etc.

- **Collaborating with the Nuns of Calcutta Dining Room:** Students who participate in this activity (ESO 4 and Baccalaureate) offer a part of their weekend to prepare lunches, set tables, clear away, wash up and serve people in the Raval area of Barcelona.

The youngest students in ANTAR as well as participating in educational talks and solidarity campaigns, take part in different voluntary activities in School:
- Making the Carnival King.

- **Collaborating** with teachers in the Infant School in different activities e.g. helping wake up the P3 children after their afternoon sleep, accompany them in the Carnival Parade etc.
